

First Hundred Words Checklist

Teaching Notes

This checklist should be used to note a student's progress in learning a sight vocabulary. That is, the words which a student can read quickly and confidently.

If the student is unsure, guesses, or needs time to sound out a word, it is best to consider that the reading of that word requires more practice.

Put a small tick next to all the words the students knows. Leave unknown words without a mark.

Record Sheet

Name: _____ DOB/Age: _____

Class: _____

Completed by: _____ on: _____
